

December 2024 from Zimbabwe Preachers

Robert Chinyenze:

It might be slow, but the word of God always melts hearts. A hard nut agreed to be baptized after several home visits, since we started the piki work this middle age lady stood up and wanted to be baptized and another lady again made up her mind. It was a good day with the brethren at chipendeke and piki, I taught about modest dressing at chipendeke the led on the Lord's table and giving. I am looking for the person who drove the piki brethren out of their houses. The attendance was very good almost everyone who got baptized was present today, I believe the words on Matthew 13:26 to be correct. We are trying to make fuel arrangements to take these two to the waters of baptism as we always try to explain that it's now a long distance. Yours prayers are of great importance especially for the new babies and those who still need to be born again to be strong in the faith. God bless
